## NEWS of WORLD MARKETS PLENTY SUGAR

New York. Feb. 2.—Covering of contracts over the double holiday accounted in large measure for the irregular advances registered in today's brief stock market. Gains of 1 to 5 points were scored by shippings, motors, olis and numerous specialties which owe their activity to pools and the short interest. Industrials of the steel, copper and equipment groups were irregular. Dealings in rails were limited to Reading and minor coalers. The closing was sirong. Sales approximated 350,000 shares. Liberty bonds were irregular, the 3½s selling at 58.26 to 98.14, first 4s at 96.50 to 96.59 and second 4s at 96 to 95.96.

New York, Feb. 2.—The cotton market recovered a good part of yesterday's loases during today's early trading. There seemed to be less apprehension of price-fixing, while prospects for the abandonment of the Monday holiday, the orders issued by the director-general of railroads to facilitate shipments of cotton to New England and prospects for continued dry weather in the southwest made a bullish impression on sentiment. The opening was 21 to 30 points higher, and active months sold some 44 to 51 points net higher before the end of the first hour, with May touching 29.68c and July 29.38c. There was active covering by recent sellers and renewed buying by trade interests on the advance.

The more urgent demand seemed to have been supplied on the early advance, and while there was no change in the news, prices reacted 18 or 20 points in the later trading under realizing. May closed at 29.67c, with the general list closing barely steady at a net advance of 26 to 36 points.

NEW ORLEANS COTTON

New Orleans, Feb. 2.—Government measures to transport cotton from the south to mills of the north were the main influence in cotton here today and prices advanced 43 to 47 points in the first half-hour. There was also a better feeling regarding price regulation owing to overnight dispatches from Washington.

A very steady tone prevailed throughout the session, but toward the end prices were off 10 to 15 points from the highest under profit-taking sales by early buyers.

Supply Ample, But Restrictions on Purchases - Conditions to Remain Unchanged.

many consumers had been led to be-lieve. Everyone can get all needed for practical needs, but only by deception practical needs, but only by deception and chicanery can anyone overload. The supply in the city is ample, and the system voluntarily adopted by jobbers tends to keep down any scarcity. For instance, if a carload of sugar arrives in the city it is divided up in such a way that no particular merchant gets any advantage in the distribution. All get according to immediate needs. If anyone attempts to get a supply not anyone attempts to get a supply not commensurate with his needs investigataken to prevent the hoarding.

There is, however, no necessity for anyone attempting to supply himself with a large supply, for there is no probability of there being a scarcity. The new Cuban crop has begun to make its appearance; and all this crop is being handled by the international sugar purchasing commission. This commis-sion has contracted for the whole Cubar output at established prices. The sugar is sold to jobbers at \$7.97 per 100 pounds. cording to quality.

is sold to jobbers at \$7.97 per 100 pounds, and this price will remain throughout the entire year. It is not probable that any change can or will be made.

The federal food administration has named the profits a retailer will be allowed to place on the product, by which only 1 cent per pound can be added. This rule has not been made known gener-ally, but it is observed by those who

have been notified.

A wholesale dealer stated Wednesday that jobbers are not allowed to sell any retailer more than 1,000 pounds at any time, and in selling this amount, which is the maximum, the standing of the retailer must be considered. If a retaile not need a large amount at one time his supply must necessarily be limited If he conducts a large establishment, like some of the retailers in the city. he is supplied with an amount commen

surate with his apparent needs.

Considerable trouble is encountered by trickery. Only five pounds can be sold customers, to get a larger supply, will send different members of the family, and at times friends, to duplicate the purchase. Detection has often prevented the unnecessary hoarding of sugar by this mode of trickery.

To sum up the sugar situation, accord-

ing to dealers, there is plenty of it in Chattanooga, and it will remain so for some time. There will be no advance in prices according to contract and government food regulations. Flour and Meal. Advances are again noted in mill prices of flour and meal. Hungarian Purity flour 4s quoted at \$11.60, an advance of

20 cents from \$11.40. Other grades remain unchanged. Matchless self-rising has advanced from \$11.60 to \$11.80. Cornmeal is quoted at \$1.90 to \$2, ar advance of 20 cents.

Bran is quoted at \$1.75, an advance

of 35 cents per 109 pounds, at one of the Grits have advanced from \$2.25 to \$2.45, an advance of 20 cents. Hominy grits are now \$2.75, formerly \$2.50 per 100 pounds.

There have been no new regulations issued by the food administrator regarding the handling of mill products.

The rules requiring the mixture of ingredients are being followed by millers, who state that the consumers are falling in line with the new order of things ized by the food administration to con coming from the Chattanooga mills, ex. which is ground at one of the merchant mills. Buckwheat cakes will make very palatable dish for breakfast, espe cially if served with maple syrup, on a wheatless day.

Fruits and Vegetabes. Prices in fruits and vegetables have fluctuated somewhat. Florida grape-fruit, per box, is 25 cents higher on the box, being advanced from \$4 to \$4.25. Malaga grapes have declined from

\$9 to \$6.50 per keg. Bananas have declined from 4 cents to 3 cents per pound. Florida oranges have advanced from \$4 to \$4.50 per box. Lemons have made a jump from \$6.50 to \$8.

New cabbake has advanced from 21/2 to 4 cents per pound.

Lima beans have declined from 17 to 16 cents per pound. In the wholesale poultry, egg and but-ter market there is both advance and

decline noted.

Dressed hens have advanced from 25 cents to 30 cents per pound; stags have advanced from 28 cents to 30 cents per pound; old cocks advanced from 15 cents to 18 cents per pound; geese advanced from 20 cents to 25 cents per pound. Feather-aressed turkeys are quoted at
35 cents per pound, an advance from 33

Fresh country eggs have begun to ap. pear in the market, and as the season advances toward spring the prices may become more reasonable. There has been a drop of 3 to 4 cents per dozen in the wholest in the wholesale prices of the henfruit, but the retailers have not yet shown an indication to read the writing on the wall and are atill holding at the same prices that have prevailed for several weeks, 70 cents per dozen. The price to producers, which has been 6215 cents, has dropped to 58 and 60 cents, the

higher price being paid for eggs brought

PIGS ARE NOT ALWAYS PIGS

A certain erudite literary gentleman leaped to fame by making the brash ssertion that "pigs is pigs." But he was wrong. Some are not. a family of potential hams that aren't. They belong to M. K. Higgins. prominent Salt Lake stockman, who says "spare the scrub brush and spoil the hog." Every day these porkers get a soap bath, and they demand it most gruntfully. Not only that, but it has made the Higgins pigs consistent

in basket lots. Andy Ware, the marketmaster, is responsible for the state-ment that if there was a further drop in the wholesale prices there would be a corresponding decline in the retail price Cold storage eggs remain at 50 cents. Creamery butter is still 60 cents pound, and there does not seem to be any prospect of a reduction in the immediate future. Country butter is selling at 40, 45, 48, 50 and 55 cents per pound, ac-

### COTTON DIVERTED BY M'ADOO'S ORDER

Senator McKellar Takes Occasion to Congratulate Director-General.

(Special to The News.)
Washington, Feb. 2.—Senator McKellar today congratulated DirectorGeneral of Railroads McAdoo on his order of last night diverting 100,000 bales of Tennessee cotton consigned to New England mills by way of Savannah, Charleston and Brunswick instead of direct to New York. In the senator's opinion this order will greatly increase freight movement in the state and prove a boon to cotton growers of this section. That the ports will not surrender their increased freight shipments after the war is the belief of the senator, who thinks the south has entered upon a new era of
